

# Mongolian Project Progresses

84 Lumber Company has been requested to showcase US construction practices by building 3 model homes in Ulaanbaatar. These homes will be inspected by Prime Minister Norovyn Altankhuyag for replacing existing ger district housing near the capitol City of Ulaanbaatar. A team headed by the Minister of Environment and Green Development, Ms. Sanjaasuren Oyum, and heads of other agencies are looking forward to the construction of these homes, which is to begin in Spring of 2014.

84 will take over a team of contractors to do a 3 day build in which these 3 model homes will be constructed.

UB City needs housing for 700,000 people and 84 Lumber is honored to be asked to be a part of Mongolia's growth.
